

Top 20 Used SUVs — Full Workup

Under \$12K base · <100k miles · delivered to ZIP 48858 (Mt. Pleasant, MI) · pulled 2026-06-21

Every vehicle below is VIN-verified against NHTSA (engine displacement, build plant, and check-digit validation all confirmed), with documented model/engine known-issues, NHTSA recall campaigns + complaint totals, and live pricing. Ranked by reliability tier (STRONG ▶ OK), then total landed cost.

On CARFAX: full accident/owner/title reports are paywalled and bot-blocked from a server. Each vehicle's green **CARFAX** button opens its free report in your browser; the gold **Check recalls done** button runs the VIN through NHTSA to show whether the recalls below were actually performed. Recall/complaint counts are for the year+model (not VIN-specific) — use the buttons to confirm the individual vehicle.
